

VILLAGE OF FOX LAKE GRAND AVE. LIGHTING PROJECT

The Village of Fox Lake (and its contractor, Utility Dynamics) plans to begin the installation of street lights on Phase I of the Grand Ave. Lighting Project.

Starting the week of January 6th, Utility Dynamics will begin the replacement of existing street lighting and installation of new decorative street lighting assemblies on Grand Avenue from Pistakee Lake Road to York Street. The work will consist of removal and disposal of excavated material, metal helix light pole foundations, installation of decorative street lighting, unit duct, lighting controllers, and final restoration of disturbed areas. Areas of sidewalk will be removed in order to facilitate the installation of the light pole foundations.

Two-way traffic will be maintained utilizing short term closures as well as traffic control flaggers. On-street parking may be limited at times.

*We apologize for the inconvenience and look forward to coordinating construction activities with your business.*

For questions on this notice or the project, please contact Jeff Klein, Project Manager, Thomas Engineering Group, at 217.549.1220 or jeffk@thomas-engineering.com or Grant Johnson, Project Engineer, Thomas Engineering Group, at 815.228.9619 or grantj@thomas-engineering.com.
